## Education

### University of Information Technology - VNUHCM

Information Systems - Bachelor's degree (2021 – 2025)

GPA: 3.2/4.0

Ho Chi Minh City, Vietnam

## Experience

### Qode.world

#### Software Engineer

Ho Chi Minh City, Vietnam

March 2025 – May 2025

- Description: A Singapore-based platform revolutionizing how talent finds meaningful careers by harnessing the power of data, automation, and AI interviews.
- Target Client: B2B
- Tech Stack (for my scope): Next.js, Node.js, PostgreSQL
- Key Contributions:
  - Delivered features related to the application and sourcing stages of the platform
  - Owned development of the candidate application service page.
  - Built PDF & DOCX profile/CV generation service from JSON templates.

### ReelSightsAI LTD

#### Software Engineer

Hong Kong (remote)

Jan 2023 – March 2025

- Description: Developed an AI-powered platform to revolutionize video and content marketing by automating content generation, optimizing search engine visibility, and enhancing audience engagement.
- Tech stack: ReactJS, FastAPI, AWS, MongoDB
- Target audience: US & Europe
- Key Contributions:
  - Led automation of social media posting (X, Facebook, LinkedIn).
  - Served as the primary engineer for video generation features.

### BAGANG TECHNOLOGY JOINT STOCK COMPANY

#### Full-stack Developer

Ho Chi Minh City, Vietnam

Sep 2022 - Jan 2023

- Developed and maintained new features for POS applications with React Native.
- Updated the front-end and back-end of the Admin Dashboard for managing a large coffee chain in Vietnam.
- Maintained and improved the loyalty points application for the same coffee chain.
- Contributed to technical ideation and discussions to enhance the company's software products.

### Maico Group Company

#### Full-stack Developer Intern

Ho Chi Minh City, Vietnam

Feb 2022 - May 2022

- Developed the front-end for a real estate business website in Vietnam, focusing on SEO optimization.
- Used NuxtJS for front-end development to enhance performance and search engine visibility.
- Integrated GraphQL API for efficient data fetching.
- Assisted in handling back-end tasks in .NET when assigned.
- Contributed SEO improvement ideas to boost the company's website ranking.

## Another Project

### eKYC & Electronic signature

Ho Chi Minh City, Vietnam

#### Full-stack Developer

- **Client:** Lao Government, Mobile network operators (Viettel, Vinaphone, Mobifone), E-service providers (FPT CA, CMC CA, Viettel CA,...)
- Tech stack: ReactJS, Java Spring, TensorFlow.js, WildFly.
